INTRODUCTION

The Purpose of the Estimates

The 2009-10 Estimates set out details of the operating and capital spending requirements of Ministries for the fiscal year commencing April 1, 2009. The Estimates constitute the Government's formal request to the Legislature for approval of the amounts involved. All expenditures from the Consolidated Revenue Fund must be authorized by an appropriation, either through the *Supply Act* or other legislation.

The Estimates are required to be tabled no more than twelve sitting days after a Budget is presented. The Standing Committee on Estimates considers the Estimates of between six and twelve Ministries or offices. Once approved by the Legislature in the *Supply Act*, the Estimates become the legal spending authority for each Ministry.

The Votes and Items contained in the Estimates provide a framework for legislative control of public spending, which must be consistent with the purpose of each Vote and Item and cannot exceed Voted totals without legislative authority.

To allow the government to continue to operate after the beginning of a fiscal year and pending the approval of the Estimates and the enactment of the *Supply Act* for that fiscal year, interim spending authority is required. The *Interim Appropriation for 2009-2010 Act, 2008* authorizes expenditures for the fiscal year commencing on April 1st up to specified maximum amounts. These expenditures must be applied in accordance with the votes and items set out in the Estimates and Supplementary Estimates for the fiscal year commencing on April 1st as tabled in the Assembly.

In addition, to allow the government to continue to operate after the authority under the Act, is depleted, the proposed *Supplementary Interim Appropriation for 2009-2010 Act, 2009* would provide additional interim spending authority for the balance of the fiscal year, up to specified maximum amounts. These expenditures would have to be applied in accordance with the votes and items set out in the Estimates and Supplementary Estimates for the fiscal year commencing on April 1st as tabled in the Assembly.

As their titles indicate, the *Act*, and the proposed *Supplementary Act*, (if enacted), are not intended to be permanent statutes. Subject to the approval of the Legislature, these statutes would be repealed upon the enactment of the *Supply Act* for the fiscal year commencing on April 1, 2009.

Format of the Estimates

The Expenditure Estimates of the Province of Ontario is comprised of two or more separate volumes/publications:

Volume 1: the Main Estimates, which detail the spending plans of each Ministry for the fiscal year.

Volume 2: Sets out the spending plans of the Board of Internal Economy offices, i.e., Office of the Assembly, Office of the Chief Electoral Officer, Ombudsman Ontario, and Office of the Auditor General.

Supplementary Estimates: Where it is necessary to seek the Legislature's approval for additional expenditures after the tabling of the Main Estimates, Supplementary Estimates may be tabled.

The Estimates for each Ministry or office are categorized as Operating Expense, Operating Assets, Capital Expense and Capital Assets. The spending plans within these categories are further classified as Votes, Items, Standard Accounts and Statutory Appropriations.

The Votes are major programs which Ministries are responsible for delivering. Each Vote is identified by a unique Vote number within the Estimates. Votes in turn are sub-divided into Items in order to distinguish between their different functions or services. This Vote/Item structure permits the Legislature to be more specific in appropriating funds to particular services. Items may be further sub-divided into sub-items, which can provide additional information on the Program/Function, if necessary.

In the Estimates, Statutory Appropriations are shown subsequent to the total amounts to be voted in the "Ministry Program Summary", "Vote Summary" and "Standard Account Classification" sections. Statutory Appropriations represent payments pursuant to a specific legislative authority and are not included in the *Supply Act*.

Within each Item and Statutory Appropriation, expenditures are detailed by standard account, i.e., Salaries and wages, Employee benefits, Transportation and communication, Services, Transfer payments, etc. (see Terms and Definitions Used).

Each Ministry's detailed section of the Estimates begins with a "Ministry Program Summary" table providing a high-level perspective of each Ministry's planned spending, listing all Votes/Programs showing total amounts to be voted, then adding Statutory Appropriations and consolidations and other adjustments. Following the "Ministry Program Summary" is a Vote Summary table for each Vote, listing each Item and Statutory Appropriation details within that Vote. Subsequent to the Vote-Item listing is a breakdown of each Vote-Item and Statutory Appropriation by standard account.

For comparative purposes, Estimates and Actual amounts for prior years are provided on "Ministry Program Summary" and Vote Summary pages. These amounts are restated to provide comparability where functional reorganizations and transfers, Supplementary Estimates or accounting changes have occurred. Restatement to previously published data is shown in a separate table following each Ministry's section in the Estimates.

Consolidation adjustments are provided on each "Ministry Program Summary" page, where applicable. The adjustments reconcile the spending requests of Ministries as set out in the Estimates to the annual Budget, which is prepared on a consolidated basis. For Broader Public Sector organizations, consolidation adjustments reflect the difference between the relevant consolidated sector net expense and the expenses already included in the Estimates primarily in the form of transfer payments. For other government organizations, the adjustments equal these organizations' gross expenses less their provincial grants. A final total of Operating and Capital expenses plus Statutory Appropriations and consolidations and other adjustments completes the picture of total Ministry spending (excluding assets).

Following the Ministry sections are twelve summary tables listing operating, capital, and total operating and capital Estimates totals for all Ministries.

Estimates Accounting Policies

Since 2003-04, the Estimates have been prepared on the accrual basis of accounting.

Commencing in 2009-10, the Province's minor and moveable Tangible Capital Assets (mTCA), including information technology hardware, business application software, land and marine fleet, and aircraft, will be capitalized on a prospective basis. mTCA in these categories will be recorded as assets on the Province's books and amortized over their useful lives. In previous fiscal years, mTCA were expensed in the year of acquisition by charges to an operating or capital budget. Since amortization of mTCA has not been included in appropriations or actual expenditures for prior fiscal years direct comparison between 2009-10 and earlier years may not be meaningful.

As noted above, the Budget is prepared on a consolidated basis and the Estimates are adjusted to reconcile with the Budget totals for each Ministry. Consolidation combines the Items of Ministries with those of other government organizations, i.e., agencies, boards and commissions.

Content and Presentation Changes

Presentation in the detailed sections of the Estimates has been modified to provide more transparent disclosure of expenditures related to acquisition/construction, use and disposal of Tangible Capital Assets. New Vote-Items have been created for disclosing mTCA acquisition, amortization and disposal costs. Further breakdown of major Tangible Capital Assets and mTCA expenditures is provided through the use of standard accounts corresponding to specific asset categories. Estimates Summary Tables 8 and 12 have been modified accordingly to display asset information by category.

As in the previous year, the cover of the Estimates is visually linked to the cover of the Budget to make more evident the connection between the two documents as elements of the same process in the continuum of financial reporting.

STRONG AGRICULTURE, FOOD AND BIO-PRODUCT SECTORS AND STRONG RURAL COMMUNITIES - VOTE 108

Under this strategy, the ministry supports agriculture, food and bio-product sectors through a comprehensive approach. Components of this strategy that contribute to the framework for these sectors include: delivery of farm income stabilization and other assistance programs to the agriculture sector; working with agri-food partners in identifying needs and opportunities, and adopting new technologies; investing in agri-food research; investment attraction and investment retention efforts for the processing sector; dealing with regulated marketing issues; and promoting Ontario food and agricultural sales in export and domestic markets.

This strategy also assists rural Ontario in building strong, vital communities with diversified economies and healthy social and environmental climates by working collaboratively with rural communities, municipalities, businesses and organizations to undertake economic development initiatives.

ADULTS' SERVICES PROGRAM - VOTE 702

Effective and accountable community-based services are directed to those most in need, in the fairest possible manner. Ontarians in need can access income and employment supports so they can move towards self-sufficiency. The Family Responsibility Office is a neutral enforcement program working with support payors and support recipients to meet their family support responsibilities. Adult community services support families and communities to help vulnerable adults, including services for people with developmental disabilities and other special needs, women who have experienced domestic violence, and Aboriginal people through the Aboriginal Healing and Wellness Strategy. The Accessibility Directorate of Ontario implements the requirements of the *Accessibility for Ontarians with Disabilities Act* to improve accessibility across Ontario and support community inclusion.

MINISTRY OF GOVERNMENT SERVICES

The Ministry of Government Services (MGS) is an enterprise ministry bringing together business levers to transform and improve government services, both internally to ministries, and externally to the public. The long-term vision of the ministry is to deliver modern government services that are simpler, faster, smarter, more connected, diverse and inclusive. This will be achieved through four priorities: transforming and improving government services, making the Ontario Public Service (OPS) an employer of first choice; delivering on government results and fiscal priorities; and creating a modern regulatory and legal environment that protects consumers, generates confidence and facilitates economic growth.

AGENCIES, BOARDS, COMMISSIONS AND TRIBUNALS - VOTE 1812

The program provides oversight to ensure effective governance, accountability, and relationship management with respect to the ministry's agencies and other service delivery partners. It is responsible for maintaining a modern regulatory and legal environment that protects Ontarians, generates confidence, and promotes economic growth.

The Licence Appeal Tribunal hears appeals concerning compensation claims and licensing activities regulated under various ministries' statutes.

The Alcohol and Gaming Commission of Ontario (AGCO) is responsible for the administration and enforcement of the regulatory framework, which governs the liquor and gaming industries (including casino gaming, charitable gaming and lotteries conducted by the Ontario Lottery and Gaming Corporation) in Ontario. In administering the *Liquor Licence Act* and the *Gaming Control Act*, the AGCO is required to exercise its powers and duties in the public interest and with the principles of honesty, integrity, and social responsibility. The AGCO also sets and enforces standards to safeguard public confidence in these sectors, where the risks of illegal activity and risks to public safety are significant.

The Advertising Review Board (ARB) is a Mandatory Central Common Service for the OPS procurement of advertising, public and media relations, and creative communications services. These services are acquired in a manner that is fair, open, transparent, and accessible to qualified suppliers. The ARB establishes all corporate Vendor of Record (VOR) arrangements, oversees supplier selection processes to ensure government guidelines and directives are met, and monitors compliance with advertising and communications services procurement policy.

The Conflict of Interest Commissioner has responsibility for certain conflict of interest and political activity matters under the *Public Service of Ontario Act, 2006*, as they apply to employees of ministries and public bodies as well as to individuals appointed to public bodies. The Commissioner handles requests for advice or rulings from Deputy Ministers, Chairs of public bodies, and other designated individuals on specific conflict of interest and political activity matters. The Commissioner also advises on financial declarations received from public servants working on matters involving the private sector as well as approved public bodies' conflict of interest rules to ensure consistency with standards established for ministry employees.

SERVICEONTARIO PROGRAM - VOTE 1814

ServiceOntario is the government's service gateway for delivering information and transactional services to both individuals and businesses and is "making it easier" for Ontarians to obtain government services through its in-person/counter/kiosk, telephone and online channels.

Service delivery through the in-person channel will further be enhanced and strengthened through Capital investments, which will provide a single "one stop" network of ServiceOntario Centres featuring integrated services; replacing the existing multiple ministry offices and centres.

The Health Policy and Research Program integrates strategy and program policy to provide strategic directions for Ontario's health system. System-wide planning allows the Ministry to: support legislation and policy; monitor alignment with the strategic directions; select and manage portfolios, strategy and other initiatives within the Ministry to further health system and health human resource goals. This will also provide health research investment and planning support and oversight. The work here includes the strategic policy and planning relating to the supply, mix, distribution, recruitment, retention, scoping of practice and training of health providers. The regulation of health professionals is a related activity.

ONTARIO HEALTH INSURANCE PROGRAM - VOTE 1405

The Ontario Health Insurance Program is responsible for key elements of Ontario's health care system: client eligibility and health card policies, physicians' payments, other practitioners' payments, out of province/out of country services, independent health facilities, midwifery services, colorectal cancer screening, drugs, community laboratories, assistive devices, payment integrity, and protection from health-related fraudulent activity.

Ontario health services are available from health professionals in various settings from family doctors' offices to hospitals to Telehealth Ontario and Telephone Health Advisory Service (THAS) where triage advice and health information is provided by a registered nurse. Government-funded services are available to Ontarians who have registered, and who are eligible for the Ontario Health Insurance Plan. The Underserved Area Program and the Northern Health Travel Grant Program offer a number of integrated supports that provide rural and northern communities with access to needed health care services. The focus for Disease Prevention is on improving health and health care for Ontarians living with diabetes and for those at a high risk for developing diabetes.

PUBLIC HEALTH PROGRAM - VOTE 1406

The goal of the Public Health Program is to protect and enhance health, prevent the onset of disease and premature death of Ontarians at all stages of life. This Program reflects the direction to focus health care resources on preventive health services. The Public Health Program sets standards and protocols, and provides funding to Ontario's boards of health. The Program includes the Office of the Chief Medical Officer of Health, who has independent powers and a responsibility to report annually on the state of public health to the Legislative Assembly of Ontario. In this regard, the mandate of Public Health includes the entire spectrum of infectious diseases, chronic diseases and injury prevention, healthy child development, family and community health, and environmental health - all with a focus on the underlying determinants of health and illness. The newly created Ontario Agency for Health Protection and Promotion will support public health at the provincial and local levels. In addition, the Program provides leadership in planning and responding to emergencies with a health component.

LOCAL HEALTH INTEGRATION NETWORKS AND RELATED HEALTH SERVICE PROVIDERS - VOTE 1411

As steward for the integrity and long-term sustainability for Ontario's health care system, the Ministry is collaborating with 14 Local Health Integration Networks (LHINs) to promote a patient-focussed, value driven, integrated and co-ordinated health care system. While the Ministry provides strategic direction and guidance, the LHINs are responsible for planning, integrating and funding health service providers in their local health systems. PROVINCIAL PROGRAMS AND STEWARDSHIP - VOTE 1412

This vote includes Provincial Programs, Emergency Health Services and Stewardship. The vote is responsible for transfer payment accountability, operational policy development, planning and funding of a wide span of specialized programs. Examples of these transfer payment programs include: Cancer Care Ontario, Community and Priority Services, Operation of Related Facilities, HIV/AIDS and Hepatitis C Programs and Chronic Disease Management Programs. In addition, the program provides Ontario's share of funding to the Canadian Blood Services and also supports a blood utilization management strategy for Ontario.

In addition to transfer payment activities, Provincial Programs and Stewardship also includes Direct Operating Expenditures (DOE) for the management and delivery of the Transfer payments within the Vote, and for the oversight administration (stewardship) of the Local Health Integration Networks.

It should be noted Emergency Health Services ensures the existence of a balanced and integrated system of emergency health services throughout Ontario. The current system consists of a series of inter-related programs and services including municipally operated/contracted land ambulance services, the not-for-profit air ambulance organization called Ornge, and ambulance communications services.

The mandate of the Pay Equity Office (PEO) is to administer and enforce Ontario's *Pay Equity Act*, which is intended to eliminate systemic gender discrimination in the compensation of work primarily performed by women. To carry out this mandate, the PEO provides education and advice to employers, employees and bargaining agents in the public and private sectors to achieve and maintain pay equity in their workplaces. The PEO also investigates complaints, monitors workplaces for compliance, attempts to effect settlements of pay equity issues between the parties and issues Orders for compliance where necessary.

The Pay Equity Hearings Tribunal, a quasi-judicial tri-partite administrative tribunal, is responsible for adjudicating disputes arising under the *Pay Equity Act*.

MINES AND MINERALS PROGRAM - VOTE 2203

This program helps build a strong, sustainable provincial mineral sector contributing to the prosperity of all of Ontario. Province-wide geological mapping, online 24-7 access to geoscience information, international marketing, and expert geological advisory services in field offices across the province create a competitive advantage for Ontario - helping a global exploration industry assess Ontario's mineral potential and attracting investment, exploration and mineral development to Ontario. This program's geoscience expertise also supports other government priorities such as groundwater mapping as part of drinking water protection efforts and identifying new industrial and energy development opportunities.

This program area also administers the Ontario *Mining Act* to ensure sustainable and responsible development of Ontario's mineral resources. This involves equitable public access to Crown mineral rights, fair and efficient management of Ontario's mining lands, and ensuring safe, environmentally sound mineral development and rehabilitation of mining lands.

This program administers the Ontario Diamond Royalty Regulation, values rough stones for export and works with industry partners to pursue value-added opportunities throughout the diamond pipeline.

The program area has responsibility for developing new, collaborative Aboriginal-mineral development engagement and consultation processes and working with communities to build relationships and foster economic and mineral development.

MINISTRY OF REVENUE

The Ontario Ministry of Revenue administers Ontario's tax statutes. The integrity of the province's self-assessment system is maintained by encouraging compliance through taxpayer information services and independent objections review, while discouraging non-compliance and tax evasion through collection activities, audits and investigations. The program also administers various tax incentive and benefit programs.

MINISTRY OF SMALL BUSINESS AND CONSUMER SERVICES

The ministry plays a lead role in strengthening business development, consumer protection and public safety. The ministry works with its network of Small Business Enterprise Centres and other key stakeholders across the province to provide programs and services to support business start-up and early stage growth, and to promote entrepreneurship as a viable career option among Ontario's youth. In addition, the ministry works with high performance firms across southern Ontario to provide advice and consultation services that assist in business expansion, both domestically and abroad. The ministry is also responsible for many of the Province's consumer protection programs, either directly or through oversight of delegated administrative authorities. In the area of public safety, the ministry oversees the Technical Standards and Safety Authority and the Electrical Safety Authority. Ministry staff continually review the regulatory environment businesses face in order to streamline the system and remove unnecessary barriers.

The ministry devotes resources to ensuring consumers are well protected and informed about their rights. Staff work in partnership with industry and key stakeholders on government policies and information campaigns to strengthen public safety.

TOURISM CAPITAL PROGRAM - VOTE 3804

The Tourism Capital Program preserves and enhances Ontario's investment in tourism infrastructure. The Ministry manages the infrastructure development commitments of the province's \$300 million capital infrastructure initiative - the Sports, Culture and Tourism Partnership program. In addition, the Ministry is responsible for rehabilitating provincially owned and operated tourism assets which serve as economic catalysts. The funding to the Ministry's agencies, attractions and convention centres allows them to undertake repairs and rehabilitation of existing infrastructure, including such things as renovations, repairs, equipment replacement, and statutory/regulatory compliance (e.g. building code changes), to help them meet health and safety standards, maintain visitor appeal, and remain competitive.

MINISTRY OF TRANSPORTATION

The transportation sector is an important cornerstone of Ontario's economic prosperity and high quality of life. Much of what we value - our jobs, our health, our education and our leisure time - is affected by the quality and accessibility of our transportation system.

The Ministry of Transportation is committed to increasing transit ridership by working with our partners to make transit a convenient and accessible option for commuters. The Ministry is also working to advance an integrated multimodal transportation network to support the efficient and sustainable movement of people and goods. Promoting road safety for all road users, through education, legislation and regulation, in order to remain among the safest jurisdictions in North America also remains a top priority. In addition, the Ministry is improving Ontario's highway, bridge, and border infrastructure through strategic investments.

Investments in transportation infrastructure help drive our economy through job creation, congestion relief and by improving the movement of trade.

POLICY AND PLANNING - VOTE 2702

The Policy and Planning Program is responsible for identifying and achieving Ontario's long-term, strategic transportation interests. Its primary focus is to plan and promote an efficient and sustainable multimodal transportation system throughout the province.

In consultation with key federal and municipal partners, the program undertakes multimodal transportation policy development and long-range transportation planning to ensure that all of the elements of the system (air, rail, road, marine and transit) work together effectively.

The program provides funding to support a multimodal transportation system and to help achieve provincial transportation related climate change objectives. It is responsible for managing the province's relationship with Crown Agencies accountable to the Minister of Transportation such as GO Transit and Metrolinx (formerly Greater Toronto Transportation Authority).

Additionally, the division works to advance Ontario's transportation priorities and interests by working with the federal government and other provinces on key areas of common interest.

ROAD USER SAFETY PROGRAM - VOTE 2703

The Road User Safety Program develops ministry strategies to improve road safety and mobility through education, enforcement and regulation of safe driving behaviour, promotion of vehicle and motor carrier safety and customer service. The program works with many partners including police, community groups, safety organizations and the private sector to reduce fatalities and injuries on our roads.

The key responsibilities of the program are to: set safety standards and develop policies, programs and regulations for road users, carriers and vehicles; inspect, monitor and enforce compliance with those standards; manage and deliver commercial vehicle International Registration Plan; oversee the delivery of driver and vehicle licensing and registration by service delivery partners including ServiceOntario; manage contracts and ongoing relationships with service providers; establish curriculum standards, approve and oversee training materials and delivery of driver training programs through service partnerships; and work with partners to educate road users about safe driving behaviour and road user safety policies, laws and programs. Developments in other jurisdictions and traffic safety research are monitored so that road safety initiatives are effective in maintaining Ontario's leading position as one of the safest jurisdictions in North America.

The program leads and actively participates with other jurisdictions in Canada and the United States in developing and promoting road safety programs and best practices. The program also sets customer service standards and monitors service delivery, including the electronic delivery of government products and services. It also facilitates the delivery of programs for other ministries, for example Drive Clean (Ministry of the Environment).

The Ministry of Transportation collects information from individuals under the authority of the *Highway Traffic Act*. The ministry maintains stewardship of this information and protects individuals' privacy in keeping with the *Freedom of Information and Protection of Privacy Act*.

PROVINCIAL HIGHWAYS MANAGEMENT PROGRAM - VOTE 2704

This program oversees the planning, design, construction, maintenance and operation of the provincial highway network and develops strategies to maximize investment results in highway infrastructure.

The program manages activities to deliver a provincial highway network that is safe, provides mobility for people and goods, and promotes economic, environmental and social sustainability. The program delivers these activities through the use of internal resources and a variety of partnerships with our private sector service providers.

Sound investment strategies preserve existing highway infrastructure through the application of asset management principles, improve trade corridors leading to key international border crossings - including the Windsor Gateway, and integrate highways with public transportation.

Activities include environmental assessments, planning, engineering, property acquisition, rehabilitation, new construction, contract oversight, routine summer and winter maintenance (such as shoulder grading/snow and ice control) for all provincial highways and bridges. In addition to the highway network, the program is responsible for remote airports in northern Ontario and ferry services in locations across Ontario.

The program also develops policies and guidelines and sets highway and bridge maintenance, engineering, material and investment planning and construction standards.
